6. The scheme does not put any restriction on organizing rural competitions in disciplines other than the identified ones in the block, district or state. The States/UTs may opt to conduct lower level competitions in any other sports discipline popular in the state such as Kalarippayattu in Kerala or any other local game. However, national level competitions in respect of such discipline will be conducted provided 08 states should have opted the particular game.

6.1 The States/UTs would select 10 sports disciplines out of the 21 identified sports disciplines, for conducting the State/UT level competitions;

6.2 As stated in above para, all the States are required to identify 10 out of total 21 disciplines for conduct of lower level competitions. As a result, a State cannot participate in more than 10 sports disciplines at National Level Competitions, unless otherwise the state conducts competitions in more than 10 disciplines in the lower level competitions. In order to participate in more than 10 sports disciplines in the National level competitions, the States/UTs may adopt the following criteria:-

- (i) The States may organize state level competitions at their own cost in disciplines over and above the identified 10 sports disciplines with their own resources. In that case, the condition of holding of block level and district level competitions in those disciplines stands waived off; and
- (ii) This will facilitate states to field sports persons in more number of disciplines at National level and consequently participation at the national level would increase.

6.3 The 10 sports disciplines identified for the State/UT level competitions will also be applicable for holding district level competitions; and

6.4 Each block will select 05 sports disciplines out of the 10 sports disciplines identified for the State/District level competitions, keeping in view the local considerations. Selection of sports disciplines for block level competitions should be made in such a manner that all 10 sports disciplines selected for district and state level competitions are covered in block level competitions. It means that, block level competitions should be conducted in all 10 sports disciplines in one or in the other block.

7. Both individual sport and team games shall be selected ideally in the ratio of 60:40 for all levels of competitions.

## 8. **Indigenous Games and Martial Arts**

The indigenous games and martial arts can be made part of the State/National level competitions, provided **8 states** should have been opted for the particular game/martial arts. The indigenous games/martial arts shall, on rotation basis, be made part of national level competitions as demonstration sport. If more than 8 states adopt the game/art, that sport may be included as part of the main competitions.
