

Biplab Kumar Deb

**CHIEF MINISTER OF TRIPURA
AGARTALA -799010**

Vanamahatsav – 2019

AN APPEAL

Nature, forest, life and civilization are innately connected to each other. We cannot think of life without forest and nature as a whole. The necessity and relevance of forests in the interest and advancement of life and civilization is universally accepted. It is from this important realization that **Vanamahotsava** is celebrated every year.

Trees are our most intimate friends. **Vanamahotsav** is not just a formal ceremony. It is the celebration of togetherness with nature in true sense. Worship of nature is an integral part of Indian culture and heritage. **Vanamahotsav** stands out as a major programme to mitigate the danger that looms large over our environment today due to climate change. Plant absorbs Carbon-di-Oxide from air and return releases out Oxygen for sustain of life. It is necessary to carry out the programme for building up awareness amongst the people about forest & its importance for existence of life.

Let each of us do tree plantation in the current rainy season and involve others also in making it a movement. I appeal to all citizens of the state come let us all, plant more and more trees for the existence of our life and environment. Let each of us plant atleast one tree, and help to create green Tripura and beautiful Tripura. Our slogan should be "**Each One – Plant One**" to make it successful.

(Biplab Kumar Deb)
Chief Minister
